We went down to Gepps Cross with the intention of having some consistency about our game. We have been very patchy over the last month of football and this has cost us dearly at crucial stages of the game. However another 8 changes (that makes 13 in 2 weeks) at the selection table (majority of them forced) again didnt allow us the luxury of settling our side in an attempt to reach this consistent performance.

I must sound like a broken record, but the same problems occurred again on Saturday. Showing glimpses of good football just doesnt cut it at this level and I will not use injuries as an excuse. It is 21 players against 21 players and accountability and pressure are two attributes that need to be present for 4 quarters of football.

Gepps ran the ball well and ran hard all day. Credit to them to be hard at the ball for the majority of the game. We again showed that we definitely have the ability to play good football. When we run hard and create space we are a very damaging side, its just doing this at every opportunity that is letting us down.

We are aiming to start settling the team down and with some key In's over the next month, Chambers, Pitt, Wicks, Young and Culpitt, these experienced players will assist us in achieving this.

When this happens and it 'clicks' I am damn sure we will come home with a 'wet sail' in the back 9 of the season. We now turn to Henley at Henley and another hard game. The key for our players is to maintain our pressure and accountability for the entire game and when this occurs, everything else will take care of itself.

Once again we travelled away, This being the middle leg of a three game block saw us venture to Gepps Cross. As was the case last week they were on the same number of wins ( 2 ), so it was going to be another test for our lads.

Another eight changes this week saw a different look side but unlike in recent weeks most of these were not forced changes, the side on paper looked to be as strong as we have had all year. There surfaced our first problem, over confident and not showing the opposition any respect, we thought it would just happen. We didn't work hard enough and relied on a teammate to start the ball rolling, as a result at quarter time we were twenty points down. Maybe i need to take some of the blame, before the game it was fairly relaxed, at times this is not such a bad thing at times it can be.

Early into the second term we were the best part of five goals down, letting the home side get a lead of that nature we needed to turn things around. Slowly but surely we did just that, we worked harder and didn't give the opposition so much space. A mention must be made that it seemed to take a first gamer Alex Mckay to show the way with his in and under attack on the ball and suddenly we were getting on top. From that point on we outscored Gepps eight goals to three which was a good effort considering our start and that we really didn't at any stage play our best footy.

I guess I should mention that they had a shot after the siren to win the game, they may consider themselves unlucky to lose but we deserved the win having missed an easier shot thirty seconds before and had hit the post twice in the last quarter.

This week we have Henley away which many would consider the hardest road trip of all. One thing should be certain we wont be going into this one with a relaxed attitude. I know we will do well this week, a chance to beat a top side which we will need to do before we can consider ourselves anywhere near those sides above us.

A very strong win and interesting game in front of a great home crowd.

We didn't have it all our own way as "The Owls" kept the pressure on and kept us honest. We put together only 2 consistent quarters of football and really applied solid scoreboard pressure for those 2 quarters.

The other 2 quarters were very long, undisciplined and some say unattractive.... but that's footy. I believe our A7 side can still clean up their intent to deliver a football that spins. I praise and coach a plan that encourages run from out of our backlines with strength and integrity. This, when on show on Saturday, and over the last couple of weeks was absolutely sensational. We need to do this more consistently if we want to be a contender.

James " Pandora" Springbett and Brad Myers continue to extend their friendship from off the field to on and the Williams brothers Ryno and AJ are loving sharing the same oval together. Damian Pontt got a lot more from the game to kick 5 majors from a pocket. Bobby Haynes was sensational from half back and Nathan Potter gave us run and strength whilst Dan Paull showed glimpses of his brilliance at a hard ball get. Great on ground presence from Shayne and Lee Tregloan and leadership shown by Peter Uncle balanced the side well. Rockstar got some of it finally and Cockers was sound in defence.

This week provides another opportunity to stay ahead of the pack and consolidate 5<sup>th</sup> and chase 4<sup>th</sup> for now.

Glenunga will be challenging. Own your patch. Play the game. Play to win.

Sunday's wet and windy conditions saw us front the top side (and main danger) Eastern Park. After the farce that was our previous outing against Hope Valley a complete turnaround in attitude was required and mercifully we got it!

Right from the start we played as I would've hoped, first at the ball and moving the ball forward with good distance in the kicks and reflex handball from the congested areas. Conditions weren't easy so wet weather football was the order of the day which was actually ideal to see how far we'd progressed (if at all!) from the horror that was enacted at Hope Valley. The desire to eradicate the memory of said fixture was obvious and manifest itself in a 6 goal to 1 score line at quarter time.

The second quarter saw us against the strong breeze and although we only kicked 1 goal against it (as they had) we went into half time leading 7 goals to 4 so it was a good job done by our onballers and defence in particular to restrict the scoring. So into the main break it was clear that if we could sustain our effort we were going to restore our reputations so badly sullied from a pitiful performance just 7 days before. Have I mentioned anything about last week's debacle yet?

The third quarter saw us extend the lead further kicking another 6 goals to 1 to put the game beyond reach at 13 goals to 5. Well then it happened or should I say didn't. With most players pretty much upping stumps and seemingly reclining on deck chairs whilst still actually participating, Eastern Park set about restoring some respectability into their day and doubled their score of 5 goals while we kicked a highly unsatisfactory 2 points. So what had been a comprehensive performance for 3 quarters was in some ways undone by a soft last quarter effort.

Still, we'd achieved what we were looking for and to be honest prior to the game to have wished for a win by any amount was as much as I could have hoped for so to deliver (for three quarters at least) as we did was very, very pleasing. A good group with much to look forward to is again a realistic possibility.

Jay-Lo/Warwick/Mr. Magoo Liddell led the way with 7 goals, his failing eyesight unable to detect it was a wet day and therefore not playing to the conditions was sublime. Jordan "What colour shorts are we wearing today?" Camplin was enterprising in the close in stuff, Brandon Kowalick controlled centre half back, Luke Bollmeyer did some special things up forward, Ben "Ginger" Mutton continued to relish the tough stuff and Brendan O'Brien played his best game of the year for us.

These individuals all played well but in truth it's unfair to just single those players out as everyone needed to perform for us to win and that's pretty much exactly what we got. We have a team of mixed ability and personalities but when they determine something is worth rolling up the sleeves and doing the hard work for they are quite formidable and so it was at the Gullies last Sunday.
